

# CALIFORNIA BLUE

C, F, G, Dm

Workin' all day and the sun don't shine  
Trying to divide and I am just killing time.  
I feel the rain for the hole night through  
Far away from you California blue.

California blue, dreaming all alone  
Nothing is to do California blue.  
Ev'ry day I pray I'll be one my way  
Dreaming love for you California blue.  
One sunny day I'll get back again  
Somehow some way but I don't no when.  
California blue, California blue.

Living my life with you on my mind.  
Thinking all things that I lived for behind  
It's been so long to doing all I can do  
To get back to you California blue

California blue, dreaming all alone  
Nothing is to do, California blue  
Evry day I pray I'll be on my way  
Sad in love for you California blue,

One sunny day I'll get back again  
Somehow some way but I don't no when.  
California blue, California blue,

Still missing you California blue

Still missing you, California blue Still missing you, California blue.
